

BOOK REVIEW

TRACEY PARKER. 2023. **Árvores Comuns de Moçambique. Common Trees of Mozambique.** (ISBN 978-0-0718739-3-3, pbk). The Tree Press, 3300 Bee Cave Road, Suite 650, #125, Austin, Texas 78746, U.S.A. (Orders: www.thetreeepress.com). \$44.95 US, 433 pp., 175 color plates with 6 to 9 color photos of various sizes (1200+ photos) + b/w line drawings, 6" × 9".

Mozambique is a country located in southeastern Africa bordered by the Indian Ocean to the east Tanzania to the north, Malawi and Zambia to the northwest, Zimbabwe to the west, and Eswatini and South Africa to the southwest. A colored map on page 12 shows the location of the country. There are 53 families and 153 genera included in the descriptions and illustrations. The species names are given in English and Portuguese. Each taxon is represented by one description page and one color illustration page. Species descriptions are in both English and Portuguese organized by DISTRIBUTION, HABITAT, USES, and NOTES. This book will have limited use outside of the geographical area of emphasis. The Glossary, Bibliography, Index of Local Names, and General Index add value to book usage.

About the author:

Dr. Parker is a forester with 40 years of experience in the countries of Asia, Africa, Latin America, and the Caribbean teaching dendrology and doing research in forest ecology and conservation.

—Harold W. Keller, PhD., Professor Emeritus, Botanist and Mycologist, Researcher,
